

Deseco's 9'x9' split carriage door finished in rustic pine cone.

Engineered efficiency, beautifully handcrafted. **desēco**
Hybrid Wood Garage Doors

Beauty that's MORE than skin deep. We begin with our EverTrue™ galvanized steel frame (won't warp, twist or buckle), fill it with highly insulative polyiso foam insulation and sandwich it between a birch interior and rough sawn cedar trimmed exterior. Actually, the exterior is up to you — cedar, pine, fir, mahogany, oak, steel, horizontal windows, vertical windows, no windows, painted or stained. The choice is yours. deseco-nw.com
